SUSTAINABILITY

"Meeting the needs of the present without compromising the ability of future generations to meet their own needs"

- Brundtland Commission

We will limit waste by embracing sustainability development. We believe college is a crucial time to developing habits, therefore we want to teach students how to manage our resources. We also prioritize social inclusion which will create equal opportunities for future generations in the workforce.

AVAIL

DIVERSITY & INCLUSION

Diversity at A&M is a very important element that is heavily pushed throughout all of campus with all of the orgs and communities. With our platform you can find opportunities through other students and communicate about which opportunity is best for you and which one you will fit in the best. Everybody can use our platform as long as they are a student and they can access the Howdy portal so everyone can feel included and feel a sense of community through the Avail app.
